European views on patients directly obtaining their laboratory test results

EFLM Patient Focused Laboratory Medicine Working Group

Questionnaire

- How are laboratory results delivered in most cases to physicians in your country? More than one answer can apply. Please rank in order of frequency:
By post
By fax
By computer link
Delivered to patients who bring them to physicians
By email
- If the results are delivered directly to the physician, can a patient collect his/her laboratory results on demand?
No
Yes
Yes, in special occasions
N/A
- From your experience is there a desire among laboratory specialists in your country to deliver laboratory results to patients? Please make an estimation:
No
Yes <25%

Yes 25%–50%
Yes 50%–75%

- Yes
No answer
- Are there any legal issues about delivering and interpreting laboratory results to patients in your country?
No
Yes
No answer
 - Do patients ask laboratory specialists about the significance of laboratory results outside the reference range and how frequently?
No
Yes >5 patients per day
Yes, 1–5 patients per day
No answer
 - Are clinical interpretative comments added to the results report by the laboratory professional?
Yes
No
Sometimes
No answer
 - Are the clinical interpretative comments the same for physicians and for patients?
Yes
No, for patients they are simplified
No, reports issued to patients upon their request do not contain any comments
Patients do not receive results
Other (please comment)

- Which patients usually ask about the significance of the results of requested laboratory analysis?

Chronic patients
Patients with acute problems
Both
No answer

- Are chronic patients informed about the significance of laboratory parameters used for monitoring of their condition?
Most of the times they are
Most of the times they are not
Approximately there is the equal number of both
No answer
- Are patients allowed to request laboratory analysis on their own expense?
No
Yes
No answer
- How do patients get information about why tests are performed? More than one answer can apply.
From their physician

- From your experience, if patients can get their results from the laboratory, how do they get an interpretation? More than one answer can apply. Please sort in order of frequency:
From their physician
From the laboratory specialist
From the internet
Other information service

- How are these reports delivered to the patient? More than one answer can apply. Please rank in order of frequency:
By post/email to the patient personally
The patient must collect them personally in the laboratory
Anyone can collect them in the laboratory
The patient can specify to the laboratory who will collect report
- Would your professional society support providing more information directly to patients?
Yes
No
No answer or comment only
- Does your professional society support providing interpretation of results directly to patients (with the agreement of the patient's physician)?
Yes
No
No answer or comment only
- Does your professional society support the use of self monitoring of relevant laboratory tests?
Yes
No
No answer or comment only

Towards harmonization of quality indicators in laboratory medicine

11th Balkan EFLM Symposium Marks 60th Anniversary of Serbian Society

by Dr. Snezana Jovicic, Society of Medical Biochemists of Serbia

The Society of Medical Biochemists of Serbia (SMBS) celebrated this year, on May 14 and 15, its 60th Anniversary. It was marked with the organization, for the 11th time, of the EFLM Symposium for Balkan Region. This year's Symposium, entitled "Laboratory Medicine Specialist Focuses on the Patients Well-being", was organized by SMBS, EFLM and Department of Medical Biochemistry of the University of Belgrade – Faculty of Pharmacy, and under the auspices of IFCC, Balkan Clinical Laboratory Federation (BCLF), Ministry of Education, Science and Technological Development and Ministry of Health of Republic of Serbia.

During the two day Symposium, the participants had a chance to hear about the current hot topics concerning the laboratory medicine profession today from leading European experts in this field – Prof. Mauro Panteghini, Prof. Simone Zerah, Dr. Gilbert Wieringa, Dr. Ian D. Watson, Dr. Wytze Oosterhuis, Prof. Elizabeta Topić, Prof. Ana-Maria Simundić, as well as about the situation in training of specialists in laboratory medicine, accreditation and key processes quality indicators in Serbian medical laboratories from Prof. Nada Majkić-Singh and Dr. Zorica Sumarac.

The talks were about the role of laboratory medicine specialists in verification of in vitro medical diagnostics metrological traceability, implementation and the transposition of the Directive on the professional qualifications, common training frameworks for specialists in laboratory medicine, common values in the liberal professions in Europe, laboratory medicine in the EU, the implementation of continuous professional development, present situation on accreditation in Europe, and preanalytical phase quality management.

This year's round table discussion, which finalized the Symposium, was exceptionally vibrant. It was hosted by students of medical biochemistry from the Faculty of Pharmacy, University of Belgrade, gathered in the "Team of Medical Biochemists". After the short presentation they had made on their extracurricular activities, they initiated a discussion with (and among) the distinguished lecturers about a topic of the utmost interest to these enthusiastic young people, as they defined it, what it takes to become a lab hero.

After the completion of the Symposium sessions, the Ceremony of the 60th Anniversary of the SMBS celebration began. The ceremony was opened by the Infinity Quintet and their inspiring performance of popular pieces by Guns'n'Roses, Whitesnake, Scorpions, in classical adaptation for a string quintet, symbolizing the continuity of the Society's work during the past 60 years and its constant change and advancement according to the demands of the actual time. Prof. Nada Majkić-Singh, the Executive Director of the SMBS, reminded us briefly of the beginnings and development of medical biochemistry in Serbia, from the middle ages on, as well as of the foundation of SMBS and its various activities. This was followed by photos from numerous events that SMBS participated and organized during the last 60 years, which were included in the book "Serbian Medical Biochemistry in 21st Century – 70 years later", published on this occasion by the SMBS.

Many distinguished guests from Serbia and abroad were invited and responded to the sum-

Photo: Lecturers and participants at the 11th EFLM Symposium for Balkan Region and SMBS 60th Anniversary

mons, and they made the welcoming address to the gathering. The greatest honor to the SMBS was made with the attendance and addressing of Her Royal Highness Crown Princess Katherine of Serbia. Congratulations to the SMBS were delivered also by IFCC President Prof. Maurizio Ferrari, EFLM President Prof. Mauro Panteghini, Dean of the Faculty of Pharmacy University of Belgrade Prof. Zorica Vujic, Dean of the Faculty of Medicine University of Belgrade Prof. Nebojsa Lalic, and Director of the Chamber of Biochemists of Serbia Dr. Slavica Cimbaljević. Also, President of the Croatian Society of Medical Biochemistry and Laboratory Medicine Prof. Ana-Maria Simundić and Sorja Kuzmanovska, Representative of the Macedonian Society of Medical Biochemistry congratulated the Anniversary, and the letter from the Polish Society of Laboratory Diagnostics sent on this occasion was read.

Regarding the 60th Anniversary of the SMBS, the President of the SMBS, Dr. Zorica Sumarac, delivered the awards. The Honorary Diploma, the highest recognition of the SMBS, intended for the designated individuals for promoting clinical chemistry and laboratory medicine in Europe and globally, was handed to Prof. Simone Zerah. The highest award, the Charter, regarding 60 years of existence and work, in appreciation and gratitude for the significant contribution to the work and development of the SMBS, was delivered to IFCC and EFLM. As recognition and gratitude for significant contribution to the work of the SMBS, Diplomas and Acknowledgments were handed to 60 individuals and organizations. The special Honorary Diploma and Anniversary Logo were delivered to Prof. Nada Majkić-Singh, the long-time President of the SMBS and present Executive Director, for her enormous contribution to the foundation and development of the SMBS and the profession of medical biochemistry in Serbia.

It is important to note that the formation of the professional association of medical biochemists in Serbia started more than 60 years ago. The Section for Medical Biochemistry of the Pharmaceutical Society of Serbia was founded in 1951, one year before the formation of IFCC (in 1952). Four years later, on the 6th Plenum of the Alliance of Pharmaceutical Societies of Yugoslavia, held in Split on May 15, 1955, the Section for Medical Biochemistry of the Alliance of Pharmaceutical Societies of Yugoslavia was formed. This Section was later re-

named the Society for Medical Biochemistry within the Alliance, according to the resolution of the 16th Plenum, held May 15, 1965, in Banjaluka. In 1995, the Society of Medical Biochemists of Yugoslavia accepted May 15 as the Day of the Society, according to these historical facts. It is important to note that the Society of Medical Biochemists of Yugoslavia soon became the 28th member of the IFCC, in May 1971.

Today, SMBS organizes congresses, biochemical days and seminars for continuous education of its members. Till now 19 congresses and 20 seminars were held. As a member of the Balkan Clinical Laboratory Federation (BCLF), SMBS organized three BCLF congresses: 4th in Budva in 1996, 11th in Belgrade in 2003, and 20th also in Belgrade in 2012. Every year, SMBS organizes together with EFLM and under the auspices of IFCC and BCLF, EFLM Symposium for Balkan Region which covers actual topics important for the promotion of the profession. Also, SMBS is the publisher of Journal of Medical Biochemistry, an international peer-reviewed journal.

Within SMBS two foundations are at work: "Professor Ivan Berkes" and "Magistra Milica Marković". Scientific Foundation "Professor Ivan Berkes" was named after the distinguished teacher and expert in medical biochemistry in Serbia and former Yugoslavia. On the Annual Scientific Conference, dedicated to his life and work, the Foundation and SMBS award the best students of the Faculty of Pharmacy University of Belgrade, and the results of doctoral thesis of members of the SMBS are presented. The Foundation "Magistra Milica Marković" was founded in memory of the esteemed colleague and long-time member of SMBS, who left an indelible mark in the development of the medical biochemistry profession in Serbia. The Foundation awards medical biochemists for promotion of technological and organizational principles of work of clinical laboratories.

This celebration of the 60th Anniversary reminded all the members and contributors of the successful development of the SMBS and it should be an impulse to young colleagues and students to continue the tradition of SMBS with even more success. They should be motivated with the motto of our long-lasting work, written by our Nobel prize laureate for literature, "He who does good, more good is expected from him."

P I B broj: 100019969

Beograd, 19. 10. 2015. godine

Pozivamo kolegice i kolege,

Obaveštavamo vas da je Programski savet Centra za kontinuiranu medicinsku edukaciju Društva medicinskih bihemijara Srbije donio odluku o organizovanju Dva desetog prvog naučnog seminara sa temom:

Aktivnosti na unapređivanju rada medicinsko-biohemijske laboratorijske struke u Republici Srbiji

Kurs će se održati u utorak, 17. novembra 2015. godine od 10.00 do 17.30 časova u Hotelu "ŠUMARICE", Ulica Desankina broj 66, Kragujevac.

Koordinatori kursa: Zorica Šurmerić, Slavica Petrović-Klečević, Vera Ilić, Tatjana Čekelović, Jelena Opačić, Svetlana Obradović, Marija Anđelković.

Profil slušalaca: biohemičari, lekari, farmaceuti, medicinske sestre, zdravstveni tehnolozi, zdravstveni saradnici.

Prilazni broj učesnika: do 150.

Priznaje se pravljaju do 15. novembra 2015. godine.

Cilj kursa: Unapređivanje stručnih seminara sa laktivnošću Društva medicinskih bihemijara Srbije i Kragujevacu Srbije u unapređivanju rada medicinsko-biohemijske laboratorijske struke kroz sveobuhvatnu davanje u oblasti stručne biohemije i saradnju sa svim institucijama uključivim u zdravstveni sistem Republike Srbije. Unapređivanje sa laboratorijskim potencijalom zdravstvenog sistema u gradu Kragujevacu. Unapređivanje stručnih seminara sa unapređivanjem kvaliteta medicinsko-biohemijske laboratorije kroz proces akreditacije zdravstvenih sistema Srbije kroz sprovođenje Akcije za akreditaciju zdravstvenih sistema Srbije. Unapređivanje sa postupcima provere kvaliteta stručnog rada medicinsko-biohemijske laboratorije kao delom jedinstvenog procesa stalnog unapređivanja kvaliteta. Sticanje znanja o implementaciji spoljašnje kontrole kvaliteta u medicinsko-biohemijske laboratorije i učešću laboratorija u Nacionalnoj spoljašnjoj kontroli kvaliteta (NIEQAS). Unapređivanje sa životnim prilikama u razvoju privatnih laboratorija i potrebi standardizacije privatnih laboratorija sa osnove primene pravila. Unapređivanje sa životnim laboratorijama državnog kao i privatnog sektora i mogućnostima unapređivanja kvaliteta rada u medicinsko-biohemijske laboratorije na primeren način zdravstvenim institutima. Razmena iskustava biohemičara u posedu vakvacijama država sa kojima se suradnju laboratorije pružaju: život u zdravstvenom sistemu Republike Srbije i osnovu na osnovu naučno razvijenu i naučno praksu. Unapređivanje sa problemima u laboratorijskim privrednoj životu zdravstvenim institutima država osim spoljašnje seminara.

PRAVILNIK

**O PREVENTIVNIM MERAMA ZA BEZBEDAN I ZDRAV RAD PRI IZLAGANJU
BIOLOŠKIM ŠTETNOSTIMA**

("Sl. glasnik RS", br. 96/2010)

PRAVILNIK

**O UTVRĐIVANJU CENA ZDRAVSTVENIH
USLUGA NA PRIMARNOM NIVOU ZDRAVSTVENE
ZAŠTITE**

("Sl. glasnik RS", br. 76/2013)

PRAVILNIK

**o utvrđivanju cena za laboratorijske zdravstvene usluge na
primarnom, sekundarnom i tercijarnom nivou zdravstvene
zaštite**

ZAKON O MEDICINSKO- BIOHEMIJSKOJ DELATNOSTI

NAŠI PARTNERI

- Komora biohemičara Srbije**
- Ministarstvo zdravlja RS**
- Farmaceutski fakultet**
- Medicinski fakultet**
- Komore zdravstvenih radnika**
- Nacionalna društva biohemičara**
- ISS, ATS**
- Udruženje privatnih med. laboratorija i
privatne zdravstvene ustanove, laboratorije**
- Srpsko lekarsko društvo**
- Savez farmaceutskih udruženja**
- Udruženja laboratorijskih tehničara**

NAŠI PARTNERI

Agencija za akreditaciju zdravstvenih ustanova Srbije

- ✓ Podrška akreditaciji zdravstvenih ustanova
- ✓ Standardi za akreditaciju laboratorija
- ✓ Spoljašnji ocenjivači AZUS-a

Institut za javno zdravlje Srbije

„Dr Milan Jovanović Batut“

- ✓ Stručni nadzor
- ✓ Liste ocenjivača, Edukacije-zajedničke obuke
- ✓ Pokazatelji kvaliteta

Predstavništva, distributeri opreme, testova i potrošnog materijala za laboratorijski rad

SNEQAS-

MEDICINSKA BIOHEMIJA

Buduće aktivnosti:

- Nastavak rada na unapređenju struke biohemije kroz **zakonsku regulativu RS.**
- Nastavak saradnje sa partnerima DMBS
- Nastavak sprovođenja SNEQAS**
- Organizacija stručnih skupova
- Obuka stručnih nadzornika
- Uvođenje e-KME...

□ Izrada nacionalnih preporuka:

- 1. Procedura venepunkcije (EFLM WG PRE)**
- 2. Kapilarna punkcija i uzorkovanje krvi kod dece**
- 3. Identifikacija pacijenata (EFLM WG PRE)**
- 4. Indikatori kvaliteta (Pravilnik o pokazateljima kvaliteta)**
- 5. Priprema pacijenata za laboratorijska određivanja**
- 6. Dizajniranje uputa za laboratorijska ispitivanja**
- 7. Izbor odgovarajućih testova za lab. dijagnostiku**
- 8. Kritične vrednosti**
- 9. Upravljanje interferencijama: upotreba HIL indeksa**
- 10. Merna nesigurnost**
- 11. Validacija i verifikacija metoda**
- 12. Preporuke za upravljanje neprihvatljivim uzorcima**
- 13. Procedura post-ekspozicione profilakse**
- 14. Transport uzoraka**

PROGRAM

**XX KONGRES MEDICINSKE BIOHEMIJE I
LABORATORIJSKE MEDICINE
sa međunarodnim učešćem**

XX CONGRESS OF MEDICAL BIOCHEMISTRY AND
LABORATORY MEDICINE
with international participations

***Harmonization of total process:
Influence of the extra-laboratory phases***

Beograd
Hyatt Regency Beograd
Maj 25-27. 2016
